3 Days

55048: No-Code SharePoint 2013-2016 Workflows With SharePoint Designer 2013

This three-day course 55048B benefits the Power User, Collection Administrator and Developers who are seeking to learn the new SharePoint 2013 workflow development process using SharePoint Designer 2013, the Visual Designer and Visio 2013. SharePoint 2016 upholds common functionality as that in SharePoint 2013 for workflows and continues to use SharePoint Designer 2013.

Completion of No-Code SharePoint 2013-2016 Workflows with SharePoint Designer 2013 course will enable candidates in:

- Exploring SharePoint 2013 Designer User Interface.

- Using Backstage View.

- Creating a Subsite.

- Creating a Site Template.

- Deleting a Subsite.

- Creating a SharePoint List.

- Creating a SharePoint Library.

- Viewing Content Types.

- Creating a New Content Type.

- Creating a Site Column.

- Adding a Content Type to a List or Library.

- Using The Out-Of-The-Box Workflows.

- Using The Three-State Workflow.

- Using The Approval Workflow.

- Using The Collect Feedback.

- Creating a Workflow Lunch Request.

- Creating a Workflow with a Custom Message.

- Creating and Configuring Workflow Parameters

- Creating and Configuring Stages, Steps, and Parallel Blocks.

- Creating and Configuring Reusable Workflow.

- Creating and Configuring State Machine Workflow.

- Using a List as a Data Source.

- Creating a Workflow in Visual Designer.

I

Course Details

_____
