10165A: Updating Your Skills from Microsoft Exchange Server 2003 or Exchange Server 2007 to Exchange Server 2010 SP1

Updating Your Skills from Microsoft® Exchange Server 2003 or Exchange Server 2007 to Exchange Server 2010 SP1 is a course that is been supported by many customers currently obtaining Exchange 2003 or Exchange 2007 to upgrade the skills and environments to Exchange 2010 Service Pack 1 (SP1) and to help them drive that adoption. It also fills in a skill gap that is existing in the portfolio and, provides content for further support as exams guide.

Objectives:

You should be able to meet the following objectives after the completion of this course:

- Configure Mailbox servers and Mailbox server components.
- Install and deploy Exchange Server 2010 in an Exchange Server organization.
- Monitor and maintain the messaging system.
- Plan and configure messaging compliance.
- Upgrade an Exchange Server 2007 organization to Exchange Server 2010.
