EX200: Red Hat Certified System Administrator (RHCSA) exam

Red Hat Certified System Administrator (RHCSA) training and certification program equips IT professionals with the essential skills needed for today's system administrators. The IT professionals seeking RHCSA training enhance their knowledge and skills to demonstrate the core system administrator skills that are required and valued by organizations using Red Hat Enterprise Linux 6 (RHEL 6).

This Red Hat certification course is one of the renowned courses aligned to usage in the IT industry and reflective of system administration skills. The competency model of RHCSA is quite similar to that of RHCT. RHCSA certification is the pre-requisite for the higher level certification on Red Hat platforms.

Course Details

_____

Who Should Attend
