EX465: Red Hat Certificate of Expertise in Business Rules exam

Red Hat® Certificate of Expertise in Business Rules exam is a performance-based exam. Individuals who earn the Red Hat Certificate of Expertise in Business Rules have demonstrated the skills and knowledge to implement and manage business logic using Red Hat JBoss BRMS. IT professionals taking this exam will be asked to perform a number of tasks, ranging in complexity from implementing very simple business rules using decision tables, to creating relatively complex business logic flows that require the use of conflict resolution techniques to ensure that the various rules fire in the correct order. Candidates are then evaluated on how well their implementations meet objective criteria such as producing a specific output given a specific set of inputs. Familiarize yourself with the tools, environment, and requirements of the Red Hat Certificate of Expertise in Business Rules exam.
