

5 Days

Effectively Interpreting Citrix AppDNA Reports

This five day course provides a detailed look at AppDNA reports and app analysis for maintenance, expansion, and migrations. Professionals will learn to interpret AppDNA reports correctly as well as develop an app migration project plan to address amber and red apps.

Professionals will also gain the ability to resolve app compatibility issues within their environment by using AppDNA. This course is based on the Citrix AppDNA 7.6, but the skills and fundamental concepts learned are common to earlier product versions.

Course Details

Course Outline

Provided is the topic outline for CAD-201:
