

1 Days

55174A: Intermediate Microsoft Word 2016

The Intermediate Microsoft Word 2016 training is a one-day class that is designed for students who have basic knowledge of creating, editing, and printing Word 2016 documents on Windows. This course will teach advanced formatting styles, using Word 2016 drawing tools, creating and managing tables, and working with column layouts.

Completion of the course equips the participants with the following skill set:

- Learning to use Word 2016's advanced editing tools.
- Learning to work with images, including placing and sizing images.
- Learning to wrap text around images, and using borders and effects.
- Learning to work with columns.
- Learning to adjust page orientation and layout.
- Learning to work with page and section breaks.
- Learning about document views, using the navigation pane, and viewing multiple windows.

Course Details
