6 Days

Prince2 Practitioner

PRINCE2® (Projects IN Controlled Environments), is a widely used project management method that navigates you through all the essentials for running a successful project. PRINCE2® Practitioner course will acquaint professionals with this de facto standard developed and used extensively by the UK government and used in the private sector internationally. It embodies established and proven best practices in project management. This course will prepare you for PRINCE2® Practitioner and the benefits of obtaining this certification will far outweight the prince2 certification cost.
