AZ-103: Microsoft Azure Administrator

You, in the process of attaining this Microsoft Azure role-based exam, need to possess proficiency in using PowerShell, Azure Portal, the Command Line Interface, ARM templates, virtualization, cloud infrastructure, operating systems, storage structures, and networking. AZ-103 is a part of the requirements in achieving **Microsoft Certified: Azure Administrator Associate certification**. **Now you have to pass only one exam (starting May 1, 2019) to attain this certification.**

Primarily, this AZ-103 Exam is purposeful for those who manage cloud services, span storage, networking, security, and compute cloud capabilities. Candidates who have attained a deeper understanding of each service across the full IT lifecycle, and take requests for infrastructure services, applications, and environments. These professionals make recommendations on services to use for optimal performance and scale, and provision, monitor, size and adjust resources as appropriate.

You need to pass one exam AZ-103 to earn Microsoft Certified: Azure Administrator Associate certification. This exam combines [AZ-100](#) and [AZ 101](#).
